**Unsuccessful Attempt to Sell a Stable Before the Races.**

(SPECIAL TO THE EVENING WORLD.)  
LINDEN RACE TRACK, N. J., Nov. 15.—Previous to the races at Linden today an attempt was made to sell the stable of Larry Hart, including much more than the Duke of Lancaster, Maggie K. and Halsey. The bidding was discouraging, bidders seeming to think that the horses ought to be given away, so Mr. Hart declared the sale off.

Maggie K. was the only one on whom bidding was made, and she was bought for \$1,000. The track at Linden today was still a little sticky, notwithstanding the two days of clear weather that have prevailed since the rain. Spectators were numerous, only eight out of the fifteen entered for the first race coming to the post.

Clarendon, with Taylor up, made a strong effort, with Chesapeake next in demand and heavily supported. On his run away race yesterday, Duke K. was also well played.

Mabel Glenn got away in the far turn, while Chesapeake had shown a little in front, and she led the rest of the way, winning easily by a length and a half.

Text was second a half before Chesapeake, who whom A. Corning made no very great effort.

The talent evidently thought that Simrock was an outright play, and he was sold at odds in the second race. The horses took a deal of the money at even, but the price was gradually cut to 3 to 5.

Zenobia was a good second choice and the others were quoted at long odds or a few cents.

Chesapeake was well supported in the 1 1/2, a bookie.

The chief players came to grief, for Zenobia took command on the backstretch and won by a head in a driving finish, with Little second.

Raymond G. was made favorite for the third race, as the going seemed to suit him, as well as the distance. Zenobia was second choice, while Harry and Elton were strongly played for good things at the so-called capitalists have shown weakness.

**EXTRA PANICKY AGAIN!**  
Baring Brothers, of London, in Liquidation for \$75,000,000.

Stocks Go Tumbling with Electrical Rapidity.  
London Bankers Advance \$55,000,000 to Avert Disaster.

Wall Street Prices Partially Recover Before the Close.

The great feature of the stock market at the opening of business this morning was the reported failure of the great London banking firm of Baring Brothers for \$75,000,000.

Some intimation of this was given in the despatches from London last night, when it was said that some of the wealthiest London bankers, had met at the Bank of England to discuss the financial situation of a certain large firm which was largely interested in American securities and which had shown signs of distress.

The name of the firm was not then given out, but it was rumored that it was the Baring Brothers, and the conference was reported to have adjourned after agreeing to make advances to help the firm out of its difficulties.

This morning the worst fears of the New York financiers were realized, for a cable was received by a firm in Wall Street, just after the opening of the Stock Exchange, in reply to an inquiry as to the name of the London firm involved, which was as follows:

"Baring Brothers' acceptances due to-day and Monday are guaranteed by Americans and the Bank of England. The total liabilities are estimated at \$75,000,000. The estate on a depreciated value shows a surplus of \$24,000,000. The firm have not failed, but protracted liquidation will follow."

A subsequent special cable from London said: "Bank of England advanced \$7,000,000 and other good houses \$4,000,000, taking all the assets on the three years' term. This will help these houses said to be in trouble."

The effect on the stock market here was electrical. The market had opened at advances ranging from 1/4 to 1 percent on all the active stocks on the list, and Northern Pacific was up 2 points.

As soon as the news from the London market got into the wind there was a rush to sell from all sides. The high-priced stocks suffered the most, and the sudden liquidation which followed sent them tumbling on the down grade, some of them a point at a time.

The greatest weakness was shown in Atchafalaya, in which company the Baring Bros. were heavily interested, having been prominent in the reorganization of this road some time ago. It opened at 3 1/2, a decline of 3 points from last night's close, and then dropped to 2 1/2, 2 1/4, and 2 1/8, in rapid succession. Big blocks of the stock were tumbled out in the haste to get rid of it.
